

Journal of Applied Science, Innovation & Technology (JASIT) is an **open-access International Journal** publishing full-length research papers and review articles covering subjects that fall under the wide spectrum of Science, Engineering and Technology. The journal is dedicated towards dissemination of knowledge related to the advancement in Scientific & Technology Research. The impressive interdisciplinary editorial board reflects the diversity of subjects covered in this journal. Under the realm of Science and Technology, the coverage includes Environmental Engineering & Sciences, Pure and Applied Mathematics, Agricultural Research And Engineering, Biology, Biotechnology, Nanotechnology, Physics, Biophysics, Computer Science, Chemistry and Bioengineering, to name a few. This Journal will supports the open access policy for making scientific research accessible to one and all.

### **Aim and Scope**

The Journal aims to become an International forum for the research and development community to publish articles of highest quality in all disciplines of Science and Technologies including:

- All Branches of Sciences and Engineering
- Physics
- Mathematics/Statistics
- Chemistry/Biochemistry/Biotechnology
- Environmental Science
- Chemical and Material Engineering
- Electrical Engineering
- Civil and Environmental Engineering
- Mechanical and Electro-Mechanical Engineering
- Computer Science and Information Technology

### **Audience**

The journal is addressed to both practicing professionals and researchers in the field of science and technology, professionals in academia, former researchers, students and other specialists interested in the results of scientific research and related subjects covered by the journal.

### **Peer Review Policy**

Manuscripts submitted to the JASIT are approved by the Editor-in-chief followed by formal peer review process conducted in collaboration with editorial board members and independent referees. The publisher encourages the authors and reviewers to use the **electronic submission and peer-review system**.

### **Peer Review Process**

Submissions to the JASIT passes through a double-blind peer-review process. The criteria for publication in JASIT are as follows:

- The study presents the results of primary scholarly research.
- Results reported have not been published elsewhere.
- The research meets all applicable standards of ethics and research integrity.
- Experiments, statistics, advanced instrument and other analyses are performed to a high technical standard and are described in sufficient detail.
- Conclusions are presented in an appropriate manner and are supported by the data.
- The article is presented in an intelligible fashion and is written in standard English.

Once the manuscripts have passed quality control, they are assigned to a member of the Editorial Board (or an expert who is not a member of the Board) for conducting the peer-review process and for making a decision to accept, invite revision of, or reject the article. Information for reviewers can be accessed **here (to be come soon)**.
